

Snap Panzar™

Snap Panzar™ is our toughest and most robust split pipe, developed in cooperation with divers and subsea entrepreneurs. Often used when the purchaser demands a product of very high quality. Tested according to ISO 9969, EN-61386-24 and SPF Verksnorm 5200.

- Non-metallic subsea cable protection
- Fast and simple installation without any tools needed
- Protects important cables in exposed environments
- Made from 100% high quality recycled plastic, PP-EPDM
